WOJCIECH STANCEL

Junior Frontend Developer

I am passionate and extremely satisfied to learn frontend technologies. I am currently learning the React framework.
I have my own website CodeCr8ive,pl, which serves as my portfolio. I have already spent hundreds of hours learning frontend and I am very excited for more.

I am also familiar with backend. I completed a Python programming course organized by the Orange Foundation.
I have spent a lot of time to expand my knowledge of backend technologies such as Django, databases or Docker.

IT PROJECTS

My website - portfolio
CodeCr8ive.pl
Link to repository: CodeCr8ive-Github
Things I have practised and improved: HTML, SCSS, JS, Gulp

Website for Photographer
Live view: FotoStory
Link to repository: FotoStory-Github
Things I have practised and improved: FlexBox, Grid, JS, SCSS

React Project
Application connected with Realtime Database on Firebase
Live view: YourNotes
Link to repository: YourNotes-Github
Things I have practised and improved: React components, useState, useEffect, React-Router, REST API

Course in progress

Understand React (Zrozumieć React)

A course from the authors of the youtube channel How to start programming?

WORK EXPERIENCE

Passenger service agent

Welcome Airport Services | 12.2018 - 6.2022

In this job I developed skills such as communication, quick decision-making and teamwork. Every day I served hundreds of passengers from all over the world, many times facing difficult and unpredictable situations. My responsibilities included.

- coordination of the check-in and boarding process
- responsibility for compliance with airline procedures
- onboarding of new employees
- preparation of reports

EDUCATION

Python

Orange Foundation Coding school | 12.2022-06.2023

- Python - basic and intermediate
- Software testing and TDD
- Backend technologies

Link to certificate: Python Certificate

Aviation

War Studies University | Master degree | 2018-2020

- Civil Aviation Safety Management
